Experience

UX Design Intern — Lloyds Banking Group (2025–2026)

- Conducted UX research and translated insights into user flows, wireframes, and interactive prototypes.
- Improved usability through iterative design, accessibility considerations, and user-centered problem solving.
- Strengthened skills in Figma, design systems, usability testing, design thinking, and stakeholder communication.

Freelance Graphic Designer (2023–2025)

- Designed branding, marketing collateral, and digital assets for clients across diverse projects.
- Developed expertise in typography, visual communication, Adobe Creative Suite, client collaboration, and project management.

Projects

Laundry App for Hostel & PG Residents

- Conducted user research, created personas, user journeys, information architecture, and user flows.
- Designed wireframes, high-fidelity prototypes, and a scalable design system in Figma.
- Enhanced skills in UX research, prototyping, usability testing, and mobile product design.

Driver Drowsiness Detection System

- Designed user flows, dashboards, alert interactions, and emergency notification experiences for an AI-powered safety application.
- Collaborated with developers to deliver intuitive interfaces while balancing usability and technical feasibility.
- Built skills in interaction design, AI-assisted product design, collaboration, and human-centered design.

Certifications

- Google UX Design Professional Certificate
- Microsoft UX Design Specialist
- Adobe Graphic Design Certification
